

CyMedica QB1™

Muscle Activation System

KNEE REHAB - REIMAGINED

Conductive Garment + NMES Controller

Revolutionary Therapy

Comprehensive, patented rehab technology addresses a significant challenge after ACL surgery - quad atrophy - with less pain and improved compliance.

Individualized Treatment

The first rehab solution to incorporate an intelligent closed-loop feedback system, providing clinically significant muscle activation with improved comfort.

Accelerated Outcomes

High-intensity NMES therapy augments muscle strength to improve function and reduce risk of injury.

SYSTEM COMPONENTS

Conductive Garment

Form-fitting, high compression, breathable wrap contains and positions electrodes.

Non-slip silicone secured by gorilla-grip compression technology.

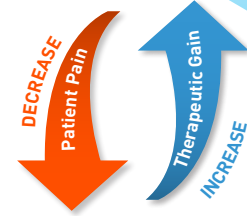

NMES Control Unit

Easy-to-use interface streamlines patient control of therapy sessions.

Intelligent muscle activation provides optimal stimulation with minimal pain.

ORDERING INFORMATION

QB1 Muscle Activation System – *without Brace* Conductive Garment + NMES Controller

| Length | Size <i>(Quad Circumference*)</i> | Right | Left |
|--|---|-------------|-------------|
| Short <i>(Pt. Height <5'6")</i> | Small <i>(13.5" – 17.5")</i> | QB-1000-031 | QB-1000-039 |
| | Medium <i>(17.5" – 20.0")</i> | QB-1000-033 | QB-1000-041 |
| | Large <i>(20.0" – 22.0")</i> | QB-1000-035 | QB-1000-043 |
| | X-Large <i>(22.0" – 25.5")</i> | QB-1000-037 | QB-1000-045 |
| | 2X-Large <i>(25.5" – 28.5")</i> | QB-1000-135 | QB-1000-139 |
| | 3X-Large <i>(28.5" – 32.0")</i> | QB-1000-137 | QB-1000-141 |
| Regular <i>(Pt. Height ≥5'6")</i> | Small <i>(13.5" – 17.5")</i> | QB-1000-030 | QB-1000-038 |
| | Medium <i>(17.5" – 20.0")</i> | QB-1000-032 | QB-1000-040 |
| | Large <i>(20.0" – 22.0")</i> | QB-1000-034 | QB-1000-042 |
| | X-Large <i>(22.0" – 25.5")</i> | QB-1000-036 | QB-1000-044 |
| | 2X-Large <i>(25.5" – 28.5")</i> | QB-1000-134 | QB-1000-138 |
| | 3X-Large <i>(28.5" – 32.0")</i> | QB-1000-136 | QB-1000-140 |

*Quad circumference is best measured at the thickest part of the thigh, often about 6" above the patella.
